Comprehensive Patient Safety Compliance Services

Quality of Care and Patient Safety are key compliance areas which now drive health care delivery.

Federal and state regulatory compliance and licensure requirements, accreditation standards and provider payment systems now all focus on quality of care and patient safety.

Health care providers must successfully navigate and integrate this myriad of legal, regulatory, accreditation and risk management issues into an integrated effective organizational response.

Implementation of a comprehensive quality of care and patient safety compliance program which interfaces with existing compliance, risk management, and accreditation efforts is crucial.

Renee H. Martin, JD, RN, MSN

Ms. Martin exclusively practices health care law and advises both individual and institutional health care providers on regulatory and transactional matters including patient safety and quality of care, fraud and abuse, EMTALA, reimbursement, compliance, and the development of corporate compliance plans. A significant portion of her practice centers on assisting clients in risk management, quality of care, and patient safety issues. Ms. Martin frequently writes and speaks nationally on these topics and serves as a member of the editorial advisory board of *Patient Safety and Quality Healthcare*.

Our Comprehensive Patient Safety Compliance Services Include

- Quality of Care and Patient safety organizational assessment which includes evaluation of existing organizational structure to determine effective and efficient utilization of compliance, risk management, environment of care, information management and patient safety.
- Design of a comprehensive Patient Safety Plan and Event Management Program that incorporates applicable federal, state, accreditation and best practice standards.
- Development of key patient safety and quality of care program polices and procedures which include auditing and oversight by the board and senior level management.
- Implementation of a comprehensive patient safety system which fully integrates compliance, risk management and quality.
- Education and training for leadership, management, and staff.

Why choose TSMO for your Patient Safety Compliance Services?

Regardless of your size or complexity, we help you to:

- Achieve effective quality of care and patient safety compliance through practical, cost-effective strategies
- Align clinical practice outcomes with federal and state regulatory compliance and enforcement activities
- Reduce medical malpractice claims risk
- Demonstrate to patients your commitment to patient safety and quality
- Align the provision of care with third party payer reimbursement incentives
